WITH PLUGS: CARS, TRUCKS, BIKES, AND MORE

ALL EVENTS ARE FREE

V2X: EVS & THE ENERGY TRANSITION Sunday, Sept. 25th 4-5:30 PM

Within the larger context of the necessary energy transition to renewables, what value will EVs provide? How will EVs benefit the grid, home and Microgrid Community Resilience Hubs for climate change adaptation? This event will introduce Vehicle-Grid Integration, including advanced topics and will provide background for our Sept. 27 webinar.

MAXIMIZING EV VALUE Tuesday, Sept. 27th 12-1:30 PM

The road ahead for EV batteries as grid storage is under construction. Our webinar panel will tell us how EV makers, charging equipment manufacturers, and electric utilities are working together to open the road to widespread implementation of Vehicle-to-Grid (V2G) technologies and their multiple benefits.

ELECTRIFY YOUR LIFE FARMERS MARKET Thursday, Sept. 29th 6-9 PM

Hear from local experts and EV owners about the many advantages of a **fully electric lifestyle**. This event will showcase electric vehicles, and provide information about programs to help community members reduce overall carbon footprint.

EV RIDE & DRIVE PREFUMO CREEK COMMONS (Behind Target) Saturday, Oct. 1st 9 AM-2 PM

Check out a wide variety of **electric cars and bikes on display**, with several dealer models available for test drives and rides. EV and E-bike owners will be there to offer rides and answer questions about the joys of driving and riding electric.

FREE brunch for first 75 to take a test drive!
