

## CONCERNS

OFFSHORE WIND TURBINES AND INFRASTRUCTURE ARE HARMFUL TO MARINE LIFE.

FLOATING OFFSHORE WIND TECHNOLOGY IS UNPROVEN AND RISKY.

OFFSHORE WIND TURBINES WILL BE AN EYESORE AND RUIN PROPERTY VALUES.

OFFSHORE WIND WILL BRING BIG INDUSTRY TO OUR BEAUTIFUL COAST.

OFFSHORE WIND IS EXPENSIVE AND WILL MAKE ALREADY COSTLY ENERGY LESS AFFORDABLE.

OFFSHORE WIND DEVELOPMENT IS NOT COMPATIBLE WITH CONSERVATION.

OFFSHORE WIND DEVELOPMENT THREATENS THE CHUMASH HERITAGE NATIONAL MARINE SANCTUARY.

## FACTS

The biggest threat to whales and other marine animals is fossil fuel emissions, fishing net entanglement, and boat strikes.

California lawmakers are working to pass AB 80, a bill that would establish a scientific monitoring program.

Federal law requires developers to study the distribution, abundance, and behavior of marine mammals in the area.

Floating offshore wind turbines have been in operation since 2017 in Scotland and since 2019 in Portugal. Norway also has floating offshore wind infrastructure.

America's first large offshore wind farm is now open 35 miles east of Long Island.

Offshore wind turbines will float 20-60 miles away from the coast, making their visibility almost nonexistent from shore.

There are no plans for major industrial activities at Central Coast harbors.

Central Coast ports will have a role for workforce and smaller ships involved in long-term operation of completed wind turbines.

Offshore wind prices can be locked-in for 20 years or more.

Offshore wind is a domestic energy source that is not impacted by volatile global markets.

Responsible offshore wind development protects marine ecosystems and mitigates environmental impact.

Sierra Club, Environmental Defense Fund, and the National Resources Defense Council are only a few of the country's conservation organizations that endorse offshore wind as a clean energy solution.

NOAA has precedent to establish permitting procedures for transmission cables within sanctuaries and other protected areas.

The Northern Chumash Tribal Council reached agreement with wind project leaseholders for future development of the project sites.
